

fsan830spring2025 - Current Sprint

github repository to support UD's Spring 2025 FSAN830 Business Process Innovation Class Site: <https://flyaflya.github.io/fsan830spring2025/>

Setting Up Git and Making Your First Pull Request

Part 1: GitHub Account Setup

1. Create a GitHub account at github.com
 - Click “Sign up”
 - Choose a username (professional, you’ll use it for years)
 - Enter your academic email
 - Create a strong password
 - Verify your email address when prompted
2. Set up your GitHub profile
 - Click your profile icon (top-right)
 - Select “Settings”
 - Add your full name
 - (Optional) Add a profile picture and bio

Part 2: Software Installation

Install Cursor IDE

1. Go to cursor.sh
2. Click “Download” for your system (Windows/Mac)
3. Run installer and follow prompts

Install Git

1. Open Cursor terminal (Cmd/Ctrl + Shift + P, type “Terminal”)
2. Check if Git is installed: `git --version`
3. If not found:
 - Go to git-scm.com
 - Download for your system
 - Run installer with default settings

Part 3: Git Configuration

In Cursor’s terminal:

```
git config --global user.name "Your Full Name"
git config --global user.email "your.github@email.com"
```

Part 4: Creating Your Profile

Fork Repository

1. Go to <https://github.com/flyaflya/fsan830spring2025>
2. Click “Fork” (top-right)
3. Wait for fork to complete
4. You’ll be redirected to your fork

Clone Your Fork

In Cursor’s terminal:

```
git clone https://github.com/YOUR-USERNAME/fsan830spring2025
cd fsan830spring2025
```

Create Branch and Add Files

```
git checkout -b update-profile-YOUR-NAME
```

Add Your Profile Picture

1. Prepare a 300px × 300px image
2. Save as YOUR-NAME.jpg (or .png)
3. Place in images folder

Create Profile Page

1. Create YOUR-NAME.md in markdownProfilePages folder
2. Use template:

```
# Your Name

![Profile Picture](../images/YOUR-NAME.jpg)

## About Me
[Write 2-3 sentences about yourself]

## Research Interests And/Or Favorite Three Topics Covered In Other Classes
- Interest 1
- Interest 2
- Interest 3
```

Part 5: Submit Changes

Commit Your Changes

```
git add images/YOUR-NAME.jpg
git add markdownProfilePages/YOUR-NAME.md
git commit -m "Add profile for YOUR-NAME"
git push origin update-profile-YOUR-NAME
```

Create Pull Request

1. Visit original repo: <https://github.com/flyaflya/fsan830spring2025>
2. You should see a yellow banner suggesting to create a pull request
 - If not, click “Pull requests” → “New pull request”
3. Click “compare across forks”
4. From dropdown menus:
 - base repository: flyaflya/fsan830spring2025
 - base: main
 - head repository: YOUR-USERNAME/fsan830spring2025
 - compare: update-profile-YOUR-NAME
5. Click “Create pull request”
6. Add title: “Add profile for YOUR-NAME”
7. Add any comments (optional)
8. Click “Create pull request”

Troubleshooting

- If push fails, ensure you’re logged into GitHub in terminal:

```
git push
# Follow prompts to log in via browser
```

- If images don’t show in preview, check file path is correct
- For any errors, copy the exact error message and ask for help

Replace YOUR-NAME and YOUR-USERNAME with your actual name and GitHub username throughout these instructions.
